

Standard Life Investments Global SICAV - Global Inflation-Linked Bond Fund

D Acc USD

30 September 2020

Objective

The Fund aims to provide a long term real return in USD from a combination of income and capital growth by investing in inflation-linked bonds. The Fund aims to outperform the Bloomberg Barclays World Government Inflation Linked Index (Hedged to USD) benchmark (before charges).

Portfolio securities

- The Fund invests primarily in inflation-linked investment grade debt and debt-related securities denominated in US Dollars, or hedged back to US Dollars, which are issued by governments, supranational institutions and government related bodies worldwide.
- The Fund may also invest in inflation-linked investment grade debt and debt-related securities issued by corporations worldwide, as well as non-inflation-linked investment grade debt and debt-related securities issued by governments, supranational institutions, government related bodies and corporations worldwide.
- The Fund may also invest in other transferable securities, money-market instruments, deposits, cash and near cash, derivatives (including currency forwards, interest rate and credit default swaps) and collective investment schemes.

Performance Data: Share Class D Acc USD

Benchmark history: Performance target/Performance comparator – Bloomberg Barclays World Government Inflation Linked (Hedged to USD)

Source: Aberdeen Standard Investments. Basis: Total Return, NAV to NAV, net of annual charges, gross income reinvested, (USD).

“Fund (Net)” refers to the actual unit price performance of the shareclass shown; “Fund(Gross)” adds back charges such as the annual management charge to present performance on the same basis as the performance target / performance comparator / portfolio constraining benchmark. All return data includes investment management fees, operational charges and expenses, and assumes the reinvestment of all distributions. The returns provided do not reflect the initial sales charge and, if included, the performance shown would be lower.

Past performance is not a guide to future returns and future returns are not guaranteed.

Management process

- The Fund is actively managed.
- The benchmark is used as a reference point for portfolio construction and as a basis for setting risk constraints.
- In order to achieve its objective, the Fund will take positions whose weightings diverge from the benchmark or invest in securities which are not included in the benchmark. The investments of the Fund may deviate significantly from the components and their weightings in the benchmark.
- Due to the Funds risk constraints, its performance profile is not ordinarily expected to deviate significantly from that of the benchmark over the longer term.

Derivative usage

- The Fund will routinely use derivatives to reduce risk or cost, or to generate additional capital or income at proportionate risk (Efficient Portfolio Management) or to meet its investment objective. Derivatives may be used to provide market exposures different to those that could be achieved through investment in assets in which the fund is primarily invested. Usage of derivatives is monitored to ensure that the fund is not exposed to excessive or unintended risks.

To help you understand this fund and for a full explanation of risks and the overall risk profile of this fund and the shareclasses within it, please refer to the Key Investor Information Documents and Prospectus which are available on our website www.aberdeenstandard.com. The Prospectus also contains a glossary of key terms used in this document.

¹The Ongoing Charge Figure (OCF), is the overall cost shown as a percentage of the value of the assets of the fund. It is made up of the Annual Management Charge (AMC) of 0.50% and other charges. It does not include any initial charges or the cost of buying and selling stocks for the fund. The Ongoing Charges figure can help you compare the annual operating expenses of different funds.

²Yield to Maturity as at 30/09/2020 is the yield that would be realised on a bond or other debt instrument if the security was held until the maturity date.

³These are the maximum charges that we might take out of your money before it is invested. In some cases, the charges may be less and you should speak to your financial advisor about this.
