BF&M Contributes \$10,000 Towards Covid-19 Testing Regime For Non-Profits

Hamilton, Bermuda, 2 December 2021—BF&M Limited (“BF&M”) today announced its donation of \$10,000 to Bermuda’s community foundation, to fund a Covid-19 testing regime for Bermuda-registered charities and non-profit organisations delivering front-line services. While some non-profits have been able to garner support through existing relationships or from the corporate sector, many have not. These groups are dependent on collective funding partners for access to health management supplies.

BF&M answered the request from the BCF, who discovered that about 11,000 lateral flow (antigen) tests were needed per month by over 30 service providers for their employees, volunteers and service recipients.

Myra Virgil, Managing Director of Bermuda Foundation, commented: “Needs far exceed the Bermuda Foundation’s grantmaking budget and we can’t fund it alone. Coordinating such a large ask of the public also exceeds our current resource capacities. Thus we approached businesses to assist, and we are grateful for BF&M’s contribution to this effort. By pooling gifts such as BF&M’s, we can make a collective impact.”

Abigail Clifford, President and COO of BF&M Limited, said: “Testing regimes are a key tool in the management of Covid-19. Bermuda’s non-profit workers put themselves at risk through their service and are often working with vulnerable groups. We are immensely grateful for the services they provide to the community and we are pleased to be able to contribute towards their health management.”
